APPENDIX 2

TIE-BREAK PROCEDURES

I. Team standings in Open and Women's sections (see [Article 4.5.1](#))

The position of teams that finish with the same number of match points shall be determined by application of the following tie-breaking procedure in order of priority:

TB1 – sum of IS(10) for the 10 best team opponents (excluding either the round where the team had a pairing-allocated bye, or if the team did not have a pairing-allocated bye, the team opponent which scored the lowest number of match-points). If there is a tie for the lowest number of matchpoints, then the lowest ISi shall be excluded.

Each ISi is determined as $GP_i \times FMP_i$,
where:

GP_i is the number of gamepoints scored in a match against opponent "i",

FMP_i is the final number of matchpoints scored by opponent "i".

TB2 – number of gamepoints scored

TB3 – sum of the matchpoints of 10 teams opponents, excluding the team opponent with the lowest number of matchpoints

Any ties unbroken after the application of TB3 shall remain tied, and the tied teams shall be assigned the top ranking of that set of teams.

II. Team standings in the combined classification (see [Article 4.5.2](#))

The position of teams that finish with the same sum of places (after application of the Tie-Breaks in [Appendix 2.I](#)) shall be determined by application of the following tie-breaking procedure in order of priority:

TB1 – sum of the number of matchpoints scored by the Open team and Women's team

TB2 – The sum of the Open team's TB1 ([Appendix 2.I](#)) and Women's team's TB1 ([Appendix 2.I](#)).

TB3 – The sum of the Open team's TB2 ([Appendix 2.I](#)) and Women's team's TB2 ([Appendix 2.I](#)).

TB4 – The sum of the Open team's TB3 ([Appendix 2.I](#)) and Women's team's TB3 ([Appendix 2.I](#)).

Any ties unbroken after the application of TB4 shall remain tied, and the tied teams shall be assigned the top ranking of that set of teams.

III. Individual standings (see [Article 4.6.3.2](#))

If two or more players have equal TPRs, the tie shall be broken as follows:

TB1 – Greater number of games played,

TB2 – Drawing of lots.

IV. Unplayed Matches in Tie-Break Calculations (see [Appendix 2.I](#) and [Appendix 2.II](#))

An Unplayed Match is a match where a team has been included in a round's pairings, and all games were scored as defaults. This does not include a pairing-allocated bye.

If a team is unpaired for a round, excluding when they have been awarded a pairing-allocated bye, for tie-break purposes only they will score 1 matchpoint for each round in which they are unpaired.

Calculation of GP

Unplayed win: $GP(uw) = 4$

Unplayed loss: $GP(ul) = 0$

Calculation of FMP

Unplayed win: $FMP(uw) = FMP + UR$

Unplayed win, but opponent plays no further matches: $FMP(uwx) = CMP + UR$

Unplayed loss: $FMP(ul) = FMP + UR$

Calculation of IS

Unplayed win: $IS(uw) = GP(uw) \times FMP(uw)$

Unplayed win, but opponent plays no further matches: $IS(uwx) = GP(uw) \times FMP(uwx)$

Unplayed loss: $IS(ul) = GP(ul) \times FMP(ul)$

where:

FMP (final matchpoints) is the final number of matchpoints scored by the opponent,

CMP (current matchpoints) is the number of team's matchpoints before the unplayed match by the opponent,

UR (unpaired rounds) is the number of rounds in which the opponent was unpaired, excluding pairing-allocated byes.
