

# Regulations for the 2008 - 2009 FIDE Grand-Prix

## 1. Introduction

**1.1.** Following the approval of the Presidential Board in Tallinn 2007, Global Chess BV and FIDE have worked on the Regulations for the World Championship Cycle for 2008/2009. A principle of stability and consolidation has been maintained throughout the various meetings and discussions held to draw up these Regulations.

The first important principle is the commercial approach to the organisation and management of these events and Global Chess will be responsible for locating one or several title sponsors for the six tournaments and for the Challenge match at the end of the Series. The host city may seek alternative sponsorship from business industries not in conflict with the main business activity carried out by the title sponsor.

The second principle is one of co-ordination. Together with FIDE, Global Chess will work and assist in the search and selection process of the host cities. The offer of each respective host city will be evaluated in terms of location, accessibility, and quality of conditions.

The third principle is communication. An open and transparent discussion has been held and will continue to be held with all stakeholders to seek continuous improvements in the standards that are offered, in making the tournaments more available to the world chess and non-chess media.

**1.2.** Governing Body: the World Chess Federation (FIDE). For the purpose of creating the regulations, communicating with the players and negotiating with the organisers, the President has nominated a committee, hereby called the World Chess Championship Committee (WCCC) who will co-operate with Global Chess BV.

**1.3.** FIDE retains all commercial and media rights of the Grand-Prix, including internet rights.

**1.4.** The body responsible for any changes to these Regulations is the FIDE Presidential Board.

## 2. Format of the Grand Prix 2008-2009

The Grand Prix will be a series of six tournaments held over two years (2008-2009) in leading world cities. The bidding process for the final selection of cities will commence in the second part of November 2007 and be finalized by January 2008.

In the interest of chess development, all continents should be represented, as far as possible, and depending on the interest generated in the series, FIDE will aim at organizing at least one event in each continent.

The timing of evaluating and contracting host city offers will be very important particularly at the start of the series. Offers to host and contract three tournaments over the next six years (i.e. three cycles – for 2008/9, 2010/1 and 2012/3) will be given preference.

21 top world players will be selected to compete in these tournaments. Each player agrees and will contract to participate in exactly 4 of these tournaments. Players must rank their

preference of tournaments once the final list of host cities is announced and the dates are allocated to each host city.

FIDE reserves the right to assign players to tournaments according to the organizational needs and the players for each tournament will be announced before the cycle begins.

Each tournament will have 14 players playing over a schedule of seventeen days. The months allocated for the organisation of the Grand Prix tournaments are April, August and December of each respective year. These months have been selected to ensure there is no conflict with any other major event.

In view of an objective of harmonisation of the FIDE chess calendar, the months for the Grand Prix for 2009 are fixed as above, and the World Cup will be scheduled to meet the timing of the World Championship match in 2009 and the Grand Prix series.

**The winner of the Grand Prix series at the end of 2009 will play the winner of the World Cup held in 2009 in an eight game match to become the challenger to the World Champion in a match to be held in the third quarter of 2010.**

### **3. Qualifiers for the Grand Prix 2008-2009**

The players who qualify for selection to play in the Grand Prix will be chosen on the following prioritized basis :

**3.1 MATCHES.** For the first cycle of 2008/9, the two players who lose the World Championship (ie. Kramnik or Anand) and Challenger matches (Topalov or the World Cup 2007 winner) will be invited to participate in the Grand Prix.

Given the organisation of both these matches in the third quarter of 2008, these players will all be asked to commit their participation in the Grand Prix series by not later than 31<sup>st</sup> December 2007, based on the above proviso of the loser of each respective match being allowed to play in the last four Grand Prix tournaments starting from December 2008.

**3.2 QUALIFICATION.** The FIDE World Cup in Khanty Mansiysk 2007 will be used to determine **three qualifiers** for the 2008/9 Grand Prix Series. Excluding the winner, these will be the players who have qualified to the semi final stages of the World Cup.

**3.3 RATING.** Based on an average calculation to two decimal places, of the January 2007 rating list and the October 2007 rating list in the year prior to start of the cycle, **seven qualifiers** will be selected (excluding the four players who will be playing the matches as defined in Article 2.1). If players have the same average rating, the number of games played between January 2007 and September 2007 (rating period) will be used to determine ranking.

To ensure active participation in the future, a minimum of twenty five (25) games is being recommended in the four rating lists including and prior to the October rating list in the year of qualification i.e. 2009, 2011 etc.. Given the short notice in the first edition of the Grand Prix, this regulation will not be applicable in the 2008-2009 series.

If any player does not accept to play in the Grand Prix series, then the selection process using the average rating plus number of games played in the rating period will be adopted, until the number of qualifiers required for the Grand Prix is completed.

**3.4 PRESIDENT NOMINEES.** The FIDE President may nominate three players and they must be rated among the top 40 players in the world as per the October 2007 rating list. Players nominated by the President should be from different countries.

**3.5 HOST CITY NOMINEES.** One players may be nominated by each host city and must be rated not less than 2550 in the last rating list prior to the final nomination or selection of players. If the host city does not have a player rated at least 2550 then the highest rated player from the Federation of the host city will be invited to play, subject to his rating not being lower than 2500.

The WCCC will coordinate with Global Chess and with all the host cities, in the allocation of players, should there be a conflict in the number of players in their ranking of preference of host cities. FIDE is not obliged, but will do its utmost to respect the players' preferences, and will balance the player allocation to a host city according to predetermined criteria such as average tournament rating, piece colour, continental representation, etc.

#### **4. Tournament Format**

4.1 In each tournament the 14 players shall play a round robin tournament of 13 rounds.

4.2 If a player withdraws after completing 50% or more of the games, the rest of his games are lost by default. In case a player completes less than 50%, all his results are annulled.
