Proposal of Mr. Gelfer regarding time control

Subject : Time Control

Time control for major FIDE events has been changed several times during the previous years. It is therefore suggested that there will be one time control system for all the major FIDE events like World Cup, Olympiad, Continental Individual Championships, Continental Club Championships etc., which will no doubt be more comfortable for all players.

The time control proposed is the one which was used in the World Chess Championships in Tripoli, Libya and Elista, Kalmykia, that is 90 min. for 40 moves +15 min. for the rest of the game +30 sec. per move starting from move no 1.

Israel Gelfer
