Report for Africa

1- Federations

First of All I want to Thank all African Federation who came to Spain knowing that it was very difficult firstly because of the financial problem that most of African Country are facing secondly because of the extra problem created from the Organizers for this Olympiad Like the extra requirement before receiving the invitations and also because the extra payment witch prevents many of The African to take part in the most important chess activity in the world and we strongly asking fide to stop such things in the future Olympiads and to ask the future organizers to give written guarantee not to happen again We have another issue concerning Somali chess federation because in Somali we have two groups declaring that they are the official chess federation one of them recognized from the ministry of sport and the other recognized from the National Olympic Committee .

2- Zone 4-2

As far as we know that Mr L.Njenga he is no longer is the President Of Kenya Chess Federation and recently we did not receive any update from him or any correspondent from him and the zone now with out President and that why we should elect new president for this zone

3- Development

By the end of this year we will have a seminar for the best African Players under 20 boys and Girls during African Junior championship with the cooperation with CACDEC beside some other seminars for trainers and arbiters and management seminars will be announce all the dates in the closest future

4- Upcoming events
