

Elista Office

The Elista Office has been working for five years already with 8 people and Mr. Abundo as Rating Administrator.

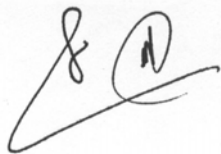

Generally speaking the level of the work has been improved and the production of the projects and issues the office is dealing with (ratings, titles, web site) is quite satisfactory.

Consequently the Presidential Board in Kotor approved a raise in the salaries to an average salary, which is more or less of Elista level.

However, as a part of some reorganizations in FIDE, the new management is also in a process of evaluating the work of the office with a clear intention of getting higher production from the staff.

I would like to include the inner report herewith.

Israel Gelfer.

A handwritten signature in black ink, appearing to be 'I. Gelfer', written on a light-colored background.
