

Proposal of Mr. Boris Kutin in respect of the 90th FIDE Anniversary

90th Anniversary of FIDE should be celebrated in two ways. First as a cultural event and another way with booklet. Opening ceremony in Tromsø is probably the best solution: one speeches, following with music (Chess ?).

Speeches should be short, proposed speakers are FIDE President, the oldest GM Yuriy Averbach, a living legend Nona Gaprindashvili or a famous writer and great chess enthusiast Ferdinand Arrabal.

The team which will take over FIDE next year will have the latest mid term to commence preparations for the hundredth anniversary- gala event.

For the book 90 years FIDE will charge our journalist commission.

Best regards

Boris
