

Proposal of the Online Commission
for awarding winners of FIDE Official Online Championships with
accommodation to the relevant over the board FIDE Official
Competitions

In order to encourage and boost participation of FOA members to the Official FIDE Online Championships, the Online Commission wishes to “connect” these Online Championships with the relevant over the board FIDE events, that is competitions under the aegis of WCOC and/or EVE Commissions.

The Online Commission proposes that the winners of Official FIDE Online Championships are awarded with free accommodation by the Organizers of the relevant upcoming over the board events. Players eligible for free accommodation shall be one (1) player per category (per age, per rating, per gender).

Federations bidding FIDE events must become aware of the number of players to be accommodated after FOA Championships.

The Online Commission takes all necessary decisions to align the regulations of Online events with the regulations of over the board events, however it is possible that winners of Online Championships may not fulfill the requirements to participate in the upcoming over the board events. In order to resolve these problems, the Online Commission and the Events Commission are going to decide in detail requirements of Online Champions eligible to participate in over the board FIDE events.
