### **1. What association provided stars for the hotels in Spain?**

Spain is divided in 17 Regions. The Tourism Department of every one with the help of the ITH (Hotel Technological Institute ) awards the stars according their own rules, but these are more or less similar in all of them.

It is not possible to compare the stars in different countries except if those countries belongs to Hotel Stars EU, <http://www.hotelstars.eu/index.php?id=145> (organization not gathering all the EU countries up to now) .

The quality of the Spanish hotels is recognized as one of the highest in the world and it is not so easy to get five or four star qualification as it could be in other countries. For that reason it is not possible to compare the number of star between hotels of different countries, and in our opinion in the FIDE inspection must be evaluated the quality of the Hotels instead of the star number.
